- Continuing Education
- Employee Purchase Discounts
- Safe Work Environment
- Profit Sharing

A FULFILLING CAREER AWAITS

"I received my college education at Northeastern Junior College and took on a job at 21st Century Equipment right out of college. I thoroughly enjoy working for this company. They offer a good work/home life balance. They pay me really well. I get plenty of time off, but what satisfies me the most is helping all these farmers in our area in a timely manner."

AG TECH COLLEGE PROGRAMS

JOHN DEERE AG TECH PROGRAM

John Deere has an alliance partnership with various colleges for the John Deere Ag Tech Program. This program allows students to graduate with an Associate of Applied Science degree from the selected college while also completing a cooperative work experience at one of our sponsoring John Deere dealership locations. Students gain hands-on experience, learning diagnostic and repair procedures using the latest high-tech electronics and software programs. Students graduate from the program having completed the John Deere core certification requirements.

Southeast Community College (SCC) - Milford, NE
The college operates on a semester system. A new Ag Tech class starts in January & August each year.

Garden City Community College (GCCC) - Garden City, KS
The college operates on a semester system. A new Ag Tech class starts every August.

Students are encouraged to apply for the Ag Tech program at either college during their sophomore and junior years of high school to ensure they have a seat in the program following high school graduation.

SCC and GCCC are reimbursed at 100%.

Service Technician
Diesel • Small Engine • Mobile Service

JOHN DEERE

TUITION REIMBURSEMENT PROGRAM

Reimbursement for tuition & fees, books, room & board (on-campus housing) will be paid at the following rates:

- 100% for John Deere programs: SCC & GCCC
80% for specific college partners: NJC, MPCC, NWKTC & WyoTech
- Snap-on® tools and a rolling toolbox (\$7,000 value) with the recommended first-year list of tools will be provided to the student. The student owns the tools and toolbox following 4 years of employment reimbursement following graduation.
- Students will be provided laptop for Service Advisor if needed for college
- Students will receive a company cell phone following graduation
- A \$2,500 incentive bonus will be paid to student technicians who successfully complete a full-time internship during the summer between high school and starting a diesel technology college program
- Full program details available in Tech Reimbursement Agreement

Applications for
the Ag Tech college
programs are available at
21stCenturyEquipment.com
under the CAREERS tab.

YOU BELONG HERE

"I started with 21st Century Equipment in 2009. My favorite part of my job is helping customers out. I also appreciate that I'm supported by my team here. We stay up to date on training. When I started, I didn't know a whole lot about ag. Now, I'm helping the younger techs try to learn, because they're where I was at one time."

Shain Rieman
Burlington, CO

AG TECH PROGRAM ENROLLMENT PROCESS

1. Complete the college online application for admissions form at: Southeast.edu, gcccks.edu, njc.edu, mpcc.edu or wyotech.edu.
2. Complete a college entrance exam (ACT, Accuplacer or Compass tests)
3. Apply for the 21st Century Equipment Ag Tech Program tuition reimbursement at 21stCenturyEquipment.com/Careers
4. Complete the Dealer Approval Form with a dealership representative (John Deere colleges only - SCC & GCCC)
